

**3<sup>RD</sup>-5<sup>TH</sup> APRIL**

*What is one man's junk may as well be another man's treasure. Innovation takes centre stage here, when we provide junk and you play creator. Does your creation have the edge factor?*

## TASK

This is an event, which shall test your problem solving skills, creativity, your ability to convert junk to a working machine and your management skills.

We give you junk and we give you a specific problem to solve.  
But this time the junk is not for free and nor are the tools which you shall use.  
You shall have virtual money to buy whatever you need.

The problem statement shall be given on the spot.

## GENERAL RULES

- A team can be of a maximum of 3 members, each of whom should be a college student and must be able to produce college ID card as and when required.
- Use of calculators, mobile phones or any other electronic gadgets is strictly prohibited. Use of any of the above mentioned equipment may lead to straight disqualification.
- Decision of the coordinators shall be final & binding.

## ROUND 1

This round will be a question paper round comprising of 30 questions from physics spanning for exactly 1 hour.

## ROUND 2

This will be an on spot event where you would be required to present a specified model. The model would be disclosed at the time of the event. Thereafter you would be required to showcase the model with the specified task. The teams would be given a virtual amount to purchase the materials and tools required.
